Trillium

LIBRARY ACQUISITIONS MADE EASY
FROM SELECTION TO SHELF

Trillium is the new, centralized platform from Casalini Libri, designed to help libraries streamline and strengthen every stage of the acquisitions and order management process. By bringing key information and workflows together in one intuitive environment, Trillium reduces administrative complexity and enhances collaboration across teams.

The platform offers a clear, unified view of orders, budgets and tracking information, enabling librarians to work more efficiently and make better-informed decisions. With powerful search capabilities, seamless reporting and simplified communication tools, Trillium supports faster turnaround times and improved transparency throughout the supply chain.
Trillium also enhances day-to-day operations with tools that facilitate resource sharing, collaborative selection and proactive budget monitoring. Its flexible structure helps libraries adapt quickly to evolving collection strategies while maintaining full control over expenditures and approval workflows.
Libraries interested in improving efficiency and strengthening their acquisition processes with Trillium are invited to contact Casalini Libri to activate their profile.

Casalini Libri is a leading provider of bibliographic services, metadata, and scholarly publications for libraries worldwide. With decades of experience supporting academic and research institutions, the company is committed to delivering high quality resources and innovative tools that advance collection development, knowledge sharing and library operations.
